

COPYTHORNE PARISH COUNCIL MEETING TUESDAY MAY 12TH 2020

Item 13. Chairman's Report

1. An update on the installation of the new benches - It is pleasing to report that the two new benches at the Parish Hall for the upper field can be installed by our Lengthsman and a commission will be raised by the Clerk to have this work completed as soon as the benches are delivered. The charges for the installation are drawn from the benches budget and are separate to the budget for the Lengthsman Scheme. Unfortunately, at present, the Lengthsman is unable to work on the Highway to install the donated commemorative bench for the top of New In Road and the Clerk is investigating further how this can be achieved.

2. Newsletter - We stopped printing the hard copy of the Newsletter for the April edition due to the current situation. However, we are keeping the situation regarding the Newsletter and print copies under review. We have had some requests for print versions and have been advised that the Pharmacy and Four Ways Store would both be willing to receive these (and possibly distribute alongside normal deliveries). As a test, we have had the latest version (May) printed and will see how the print copies are accessed in those locations.

SIMON LUCAS
Chairman
