

Copythorne Parish Council Meeting – January 11th 2022

Item 10 – To approve recommendations for a Community Transport Leaflet for Copythorne Parish

Introduction

At the Parish Meeting in November last year, I said that I would look at producing a handy leaflet giving details of all the transport links available in Copythorne Parish.

Proposals

Expanding on the idea of a printed leaflet, maybe we should look at producing a single page in the Parish Newsletter and also add a page to our website?

Turning, to what information the leaflet should contain. I've reproduced the table from the presentation that I gave at the Parish Meeting (see Annex A below), which contains details of all the transport services available in the parish, that I can find. Obviously there just isn't room to show all the bus timetables, but the question is should we add details of the respective Bus company's websites as links.

Recommendations

1. Produce a short print run single page leaflet at a cost of circa £50 giving details of all the transport that is available in the Parish.
2. Add a page to our website covering the transport available in the Parish
3. Include details of local bus company's websites as links
4. Reproduce the leaflet as an additional single page in the Parish Newsletter

Cllr. Graham Chillcott
